Early Bumblebee

bee?

**Common Bumblebee Species
found in Tayside**

**Common carder
Bumblebee**

**Garden
Bumblebee**

White-tailed Bumblebee

info.

garden plants which are good for bumblebees

Flowering Time	Plants
March - April	Flowering Currant Pussy Willow Dead Nettle
May - June	Comfrey Aquilegia Foxglove
July - August	Lavender Centaurea Buddleia

Bumblebees and their young eat only nectar and pollen. Gardens can be a rich source of food throughout the bumblebee season, from March to late summer.

Gardens can also supply suitable nesting sites for bumblebees.
A football sized hollow in the ground covered with a paving slab is perfect.
A few gaps around the sides will ensure they can get in.
