

## Something to declare

### Tip of the week

#### Tay attention

ScotRail has published a leaflet called *Travelling along the Tay* to highlight the range of wildlife visible from the rail line from Perth to Dundee and onwards along the coast to Montrose. Seals swim as far upstream

as Perth. In addition, the Tay estuary (which includes Britain's largest expanse of reeds) and the cliffs of Angus provide habitat for a wide array of birds, including peregrine falcons, fulmars, kittiwakes and puffins. Download the leaflet at [www.bit.ly/9H7mg0](http://www.bit.ly/9H7mg0).
